

# CABLE LADDER

## High Quality – Start to Finish!

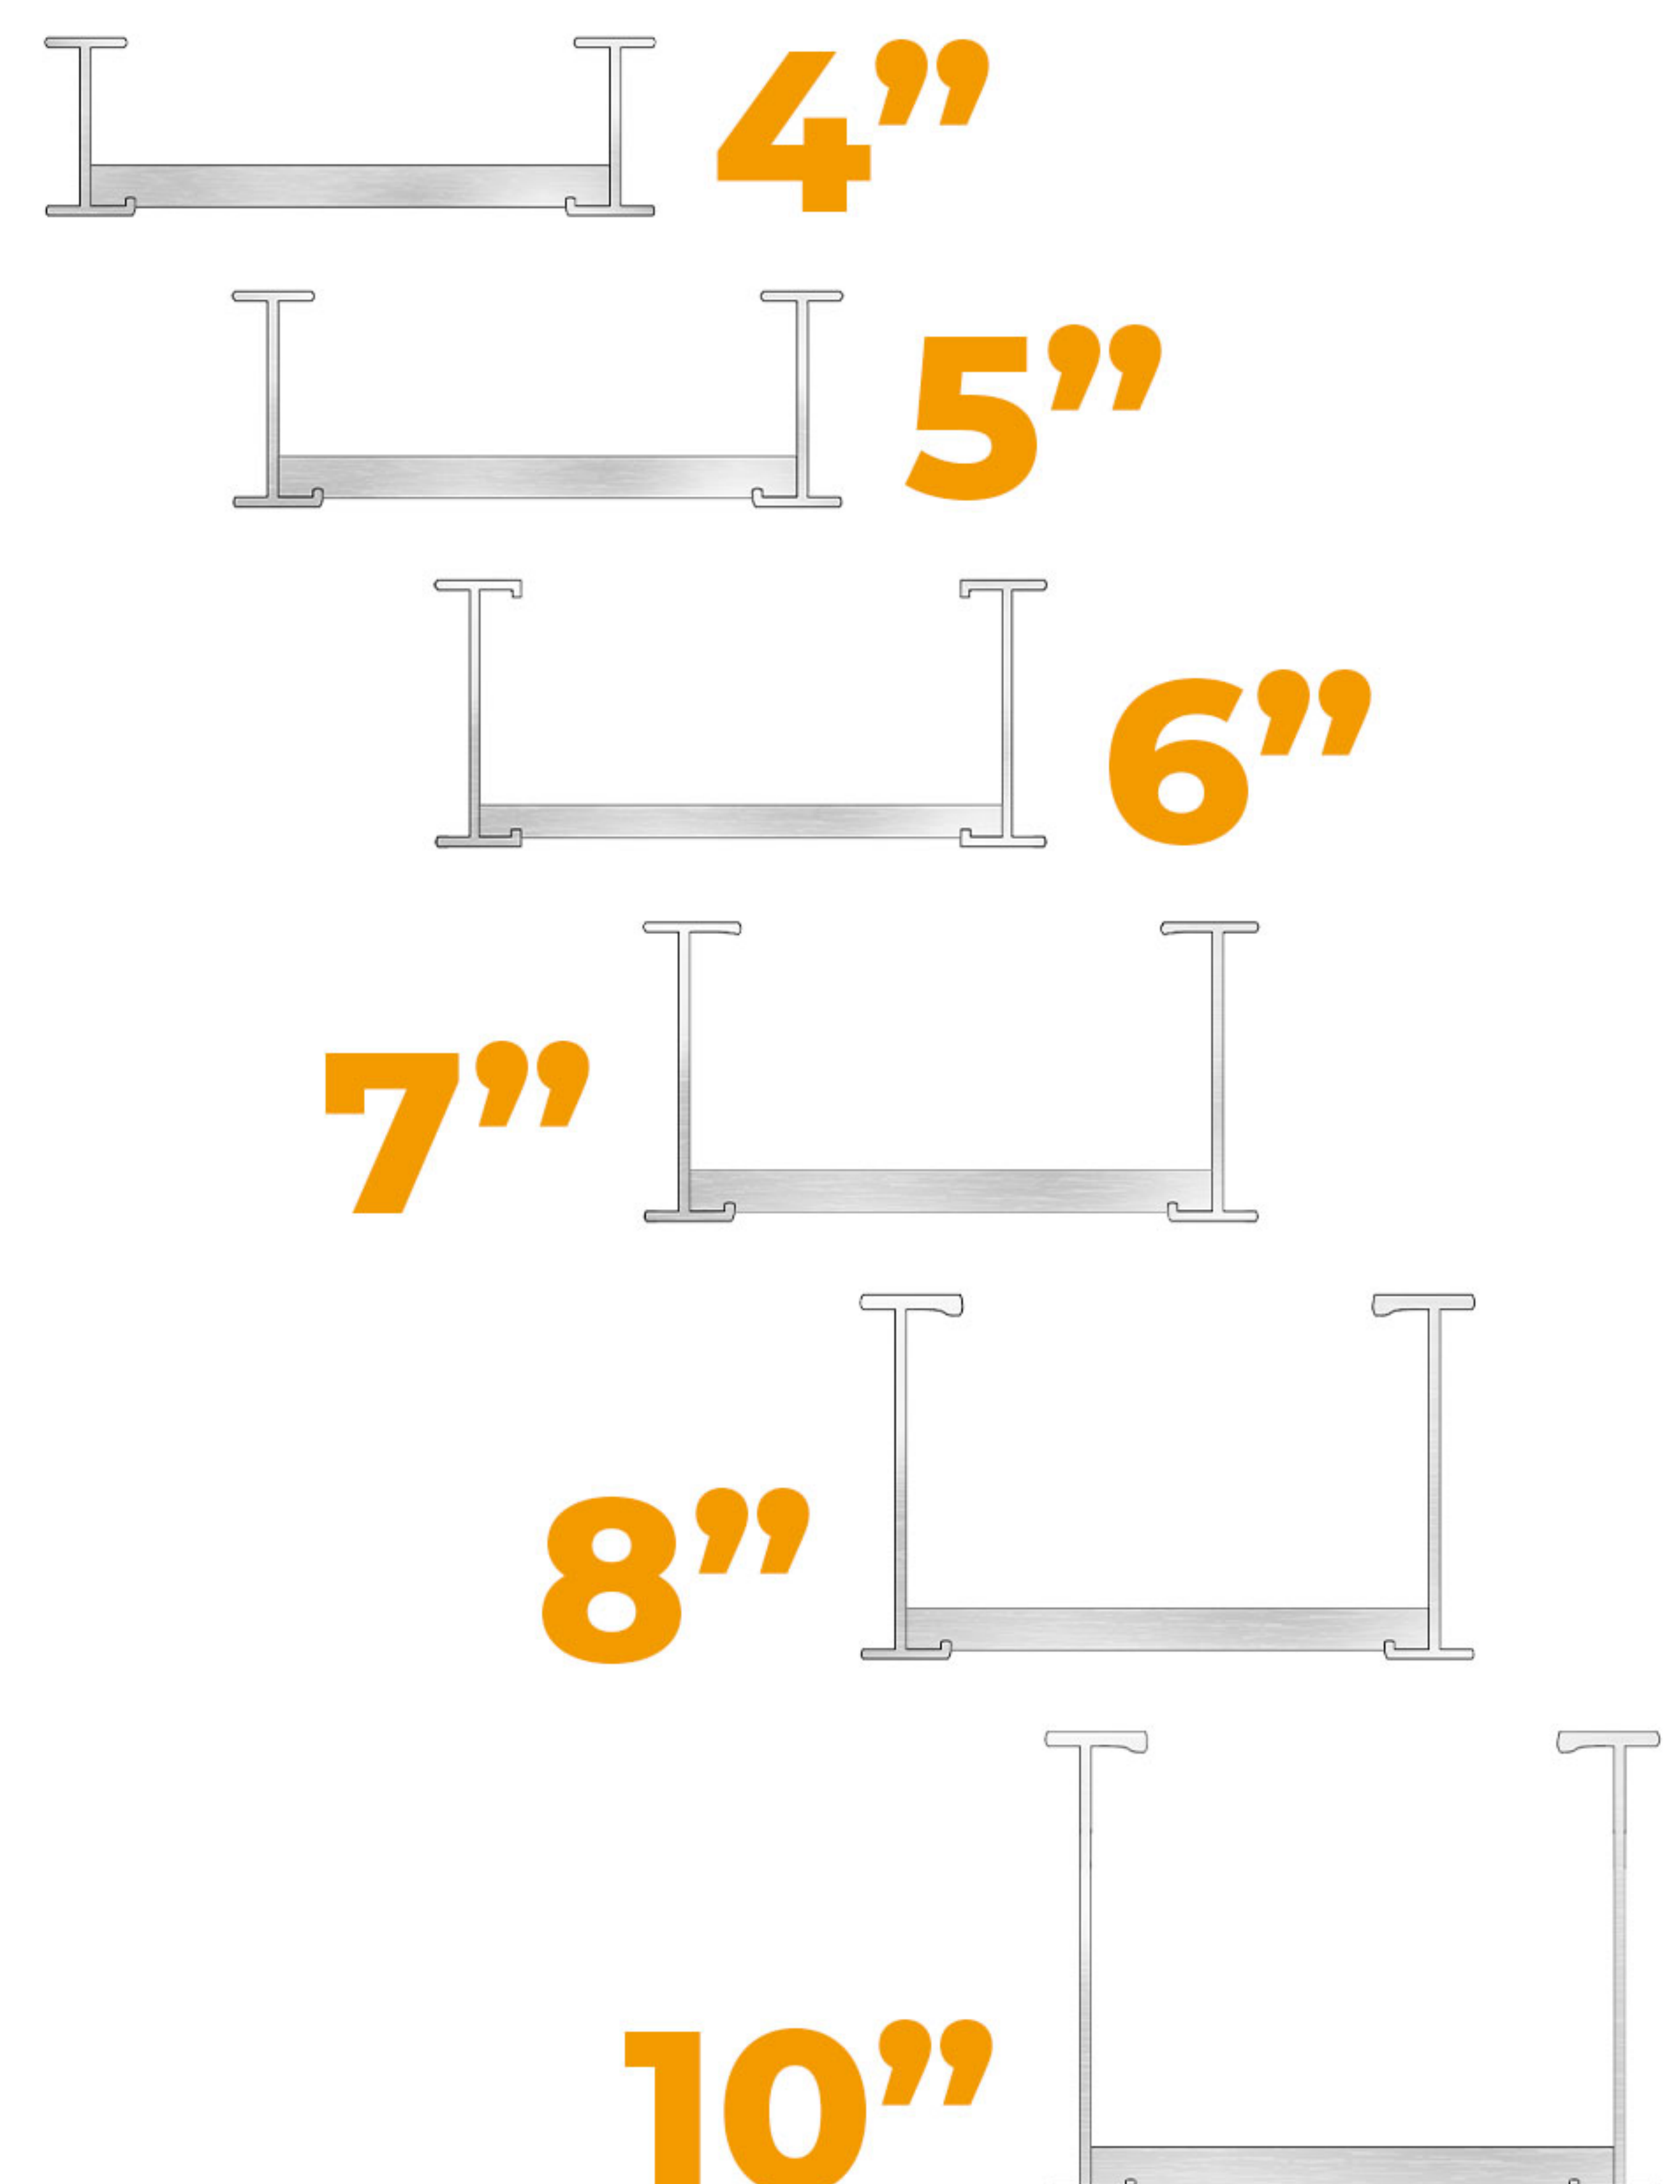

Chalfant ladder tray systems are ideal for indoor and outdoor cable management. They provide reliability, ease of installation, and cost savings both initially and in the long run.

- 4" - 10" side heights
- 6", 9", 12", 18", 24", 30", 36", 42", and 48"

Chalfant offers ladder tray systems in multiple finishes to meet the challenges of potentially harsh environments.

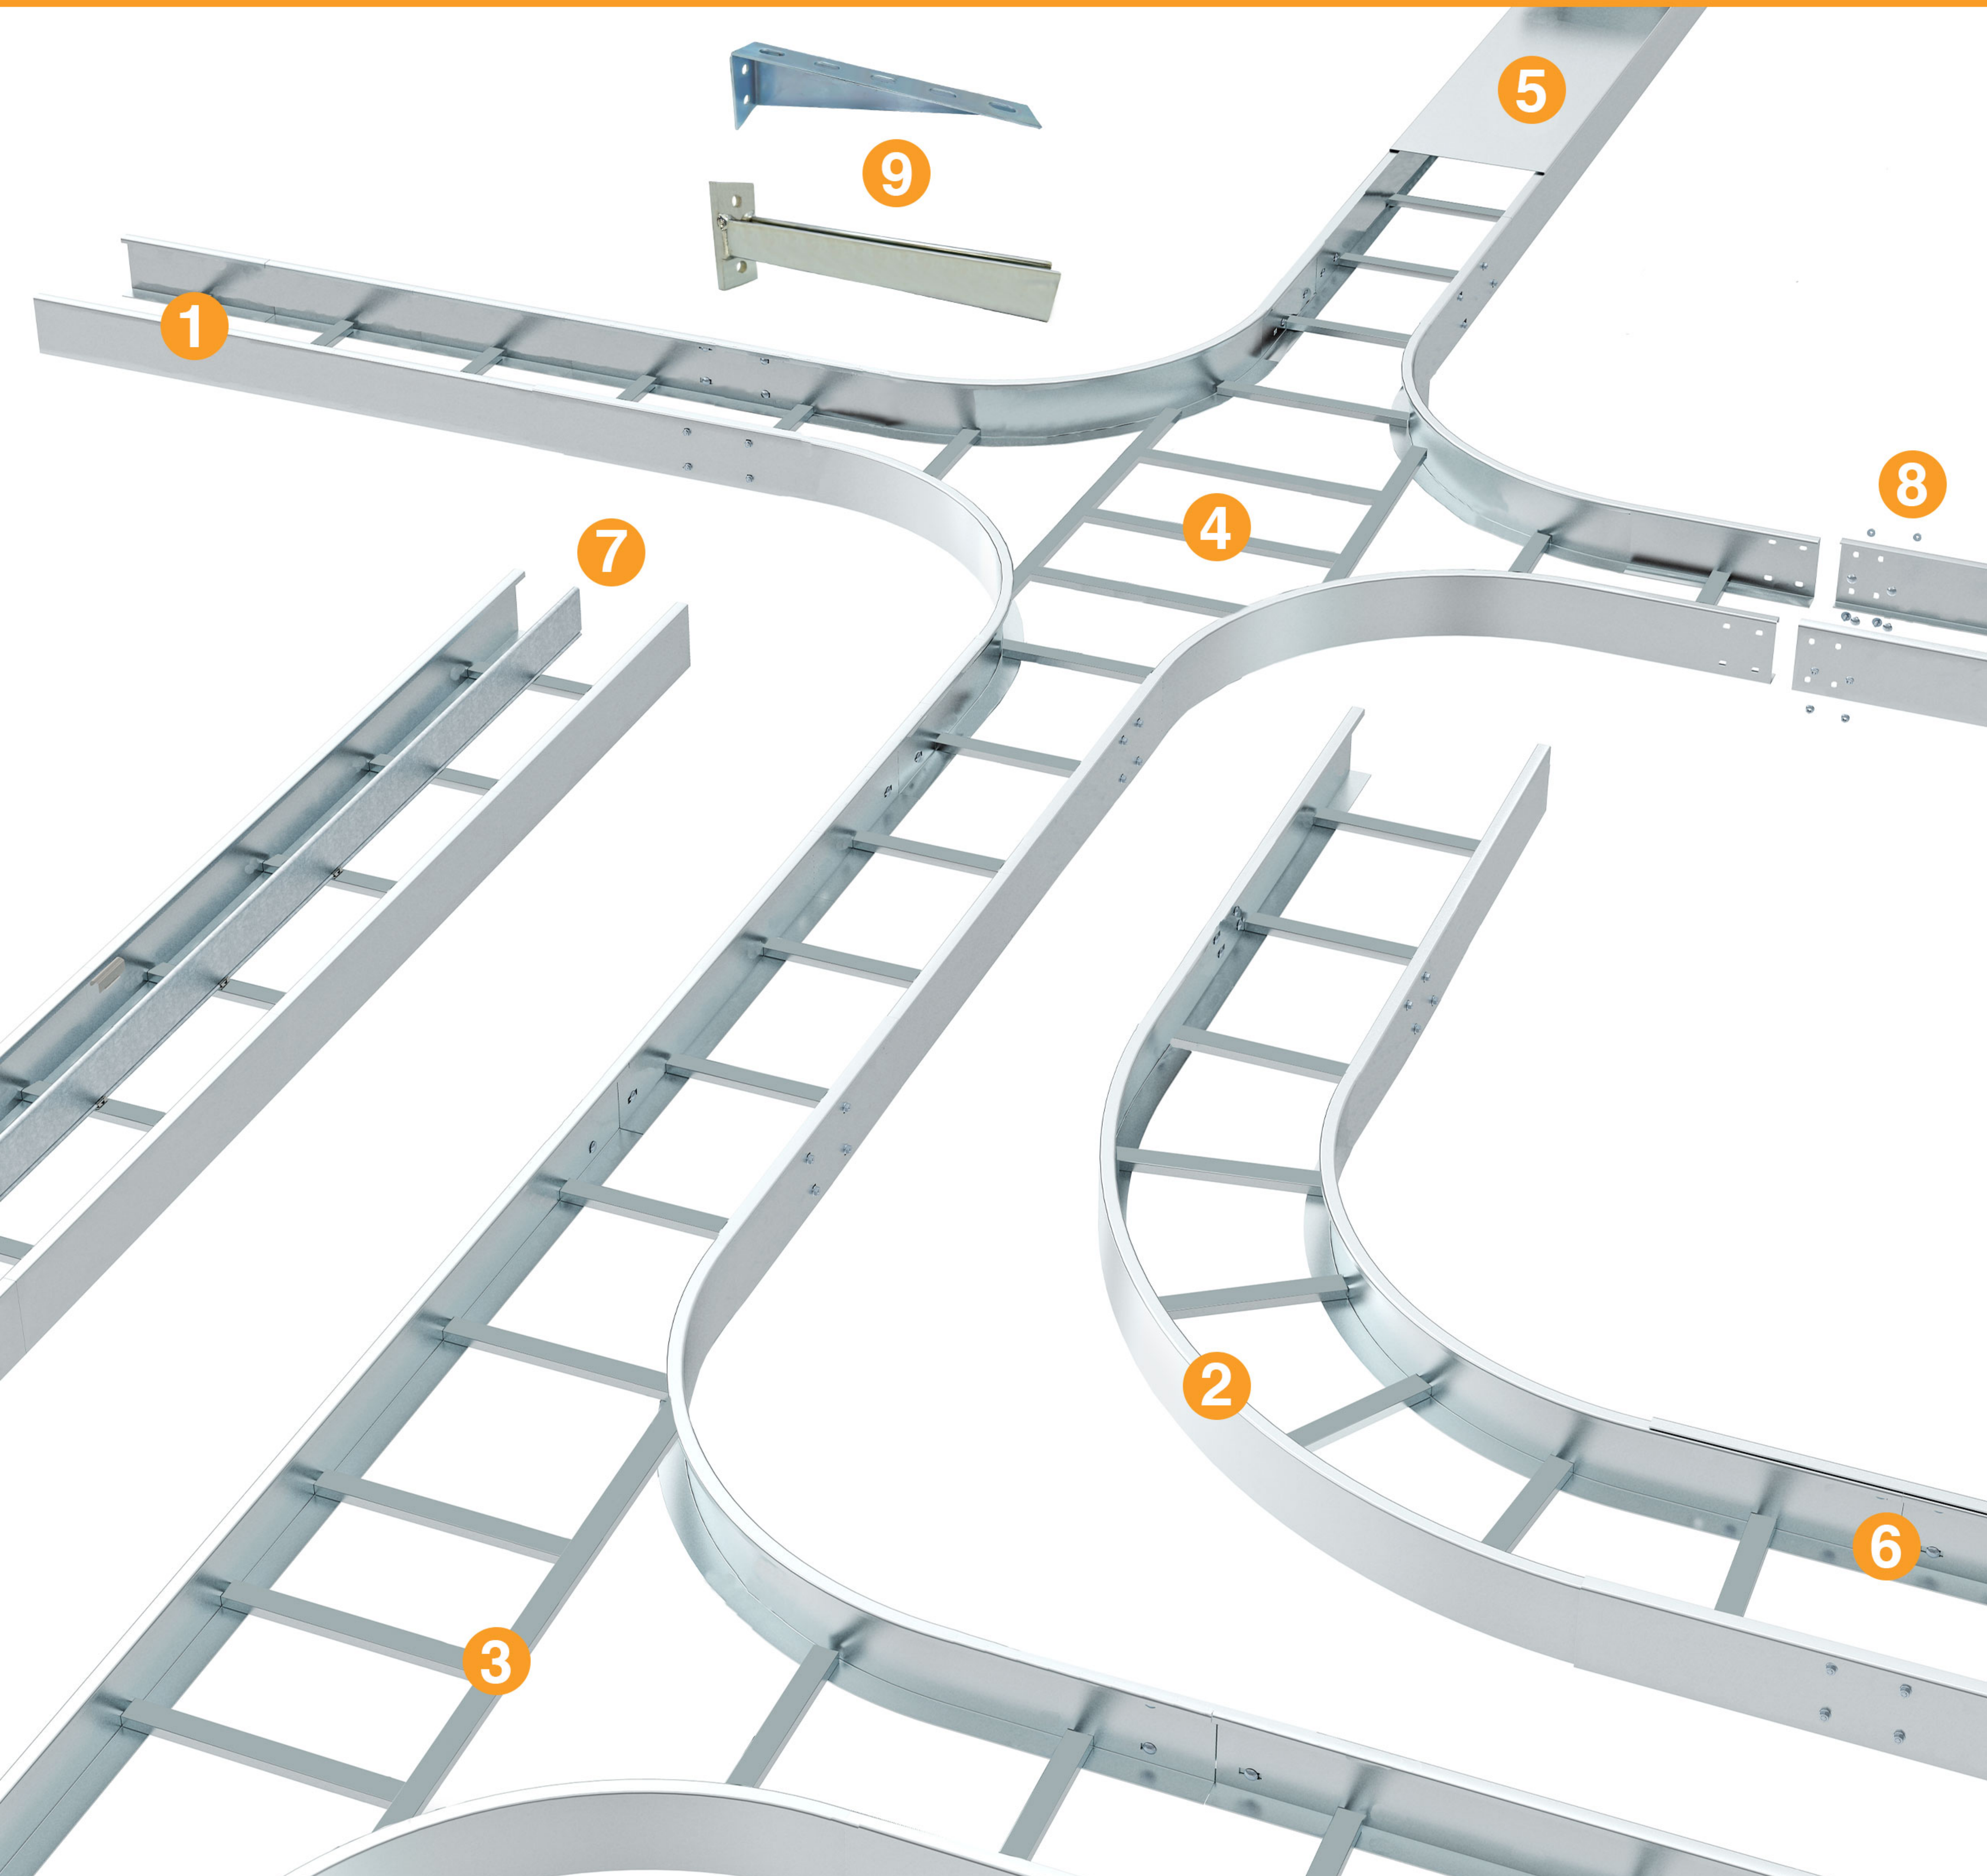

- **Aluminum** ladder is ideal for seacoast, offshore, and most petrochemical and pulp mill applications.
- **Pre-Galvanized Steel** is ideal for indoor use.
- **Hot-Dip Galvanized Steel** is primarily used outdoors in harsh environments.
- **Stainless Steel** trays are used in special, highly corrosive environments.

All Chalfant cable tray, with the exception of stainless steel, are UL listed as equipment grounding conductors. Our ladder design ensures optimal airflow for heat dissipation and efficient, safe cable organization.
