

# RKS-MAGIC® CABLE TRAY

## Click!

The RKS-Magic® cable trough system, featuring our patented Magic Connection System, provides a rapid, screwless connections. Simply align the cable trough ends and click together. The Magic® connection technology is available on straights, fittings, and select accessories. Just line up the ends of the cable trough, click, and you're done!

- 1", and 2" side heights
- 2" - 24" widths

RKS-Magic® system offers a complete line of covers, accessories, preformed fittings, bends, and intersections. It keeps cables enclosed while still allowing for air circulation and easy access for future updates.

Chalfant offers multiple finishes suitable for use in a variety of applications.

- **Electroplated RKS-Magic®** is available for indoors, with no specific demands.
- **Stainless Steel RKS-Magic®** is particularly suited to the food and chemical industries.
- **Hot-Dip Galvanized RKS-Magic®** is the perfect choice for any outdoor installation.
