

SERIES 6 CABLE TRAY

When Looks Count!

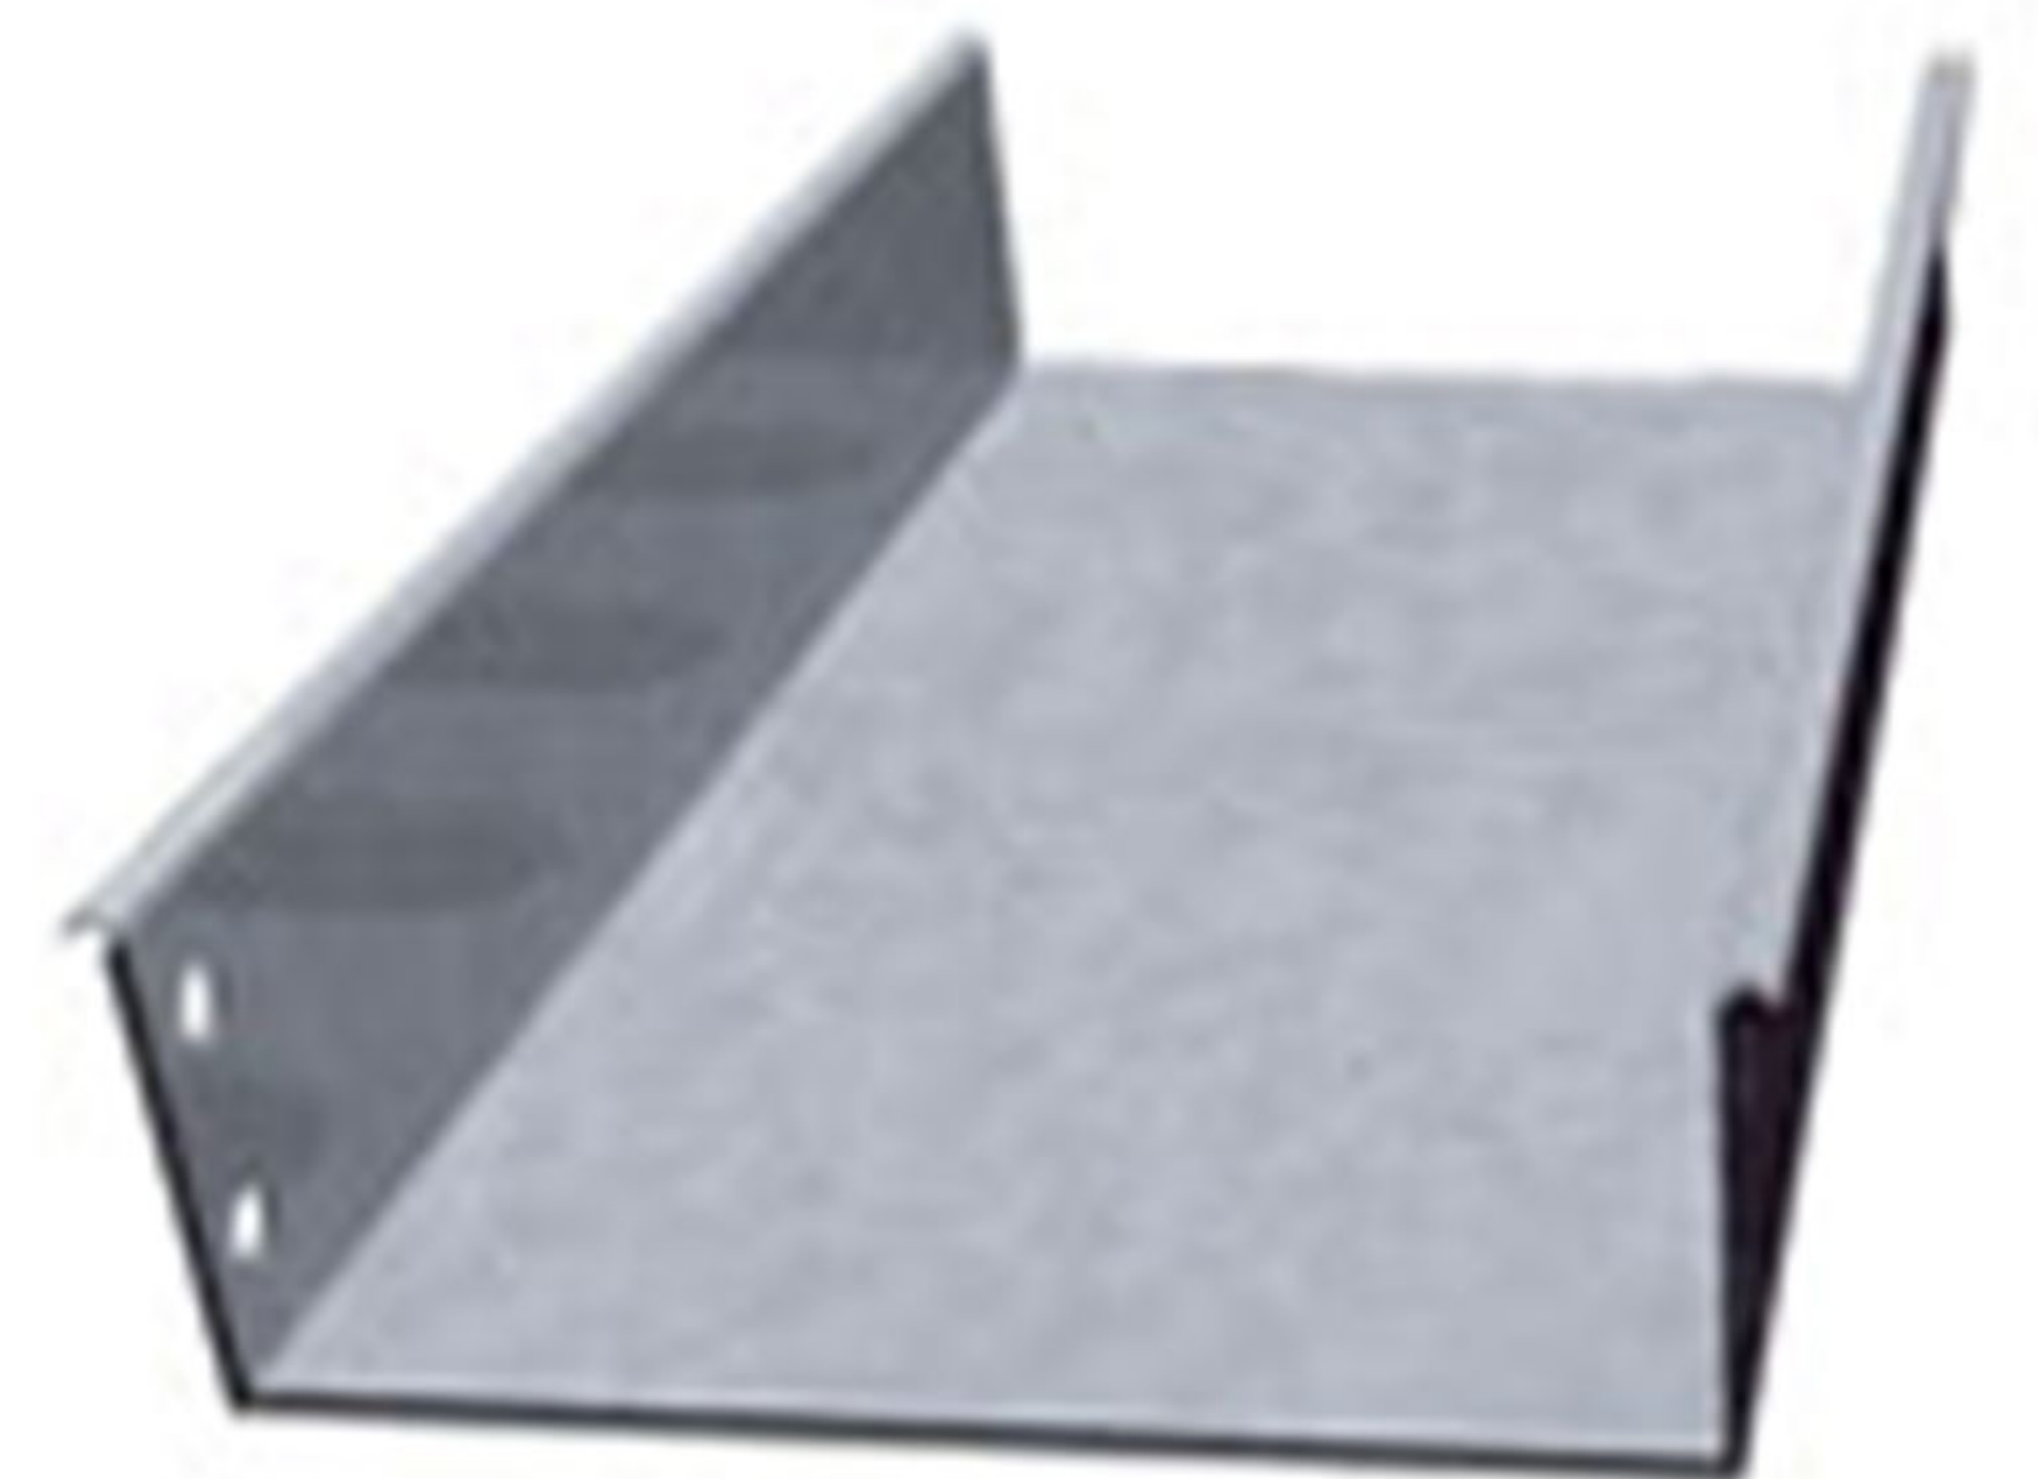

Series 6 Trough Cable Tray is a sleek and versatile solution for wire and cable management, manufactured right here in the USA.

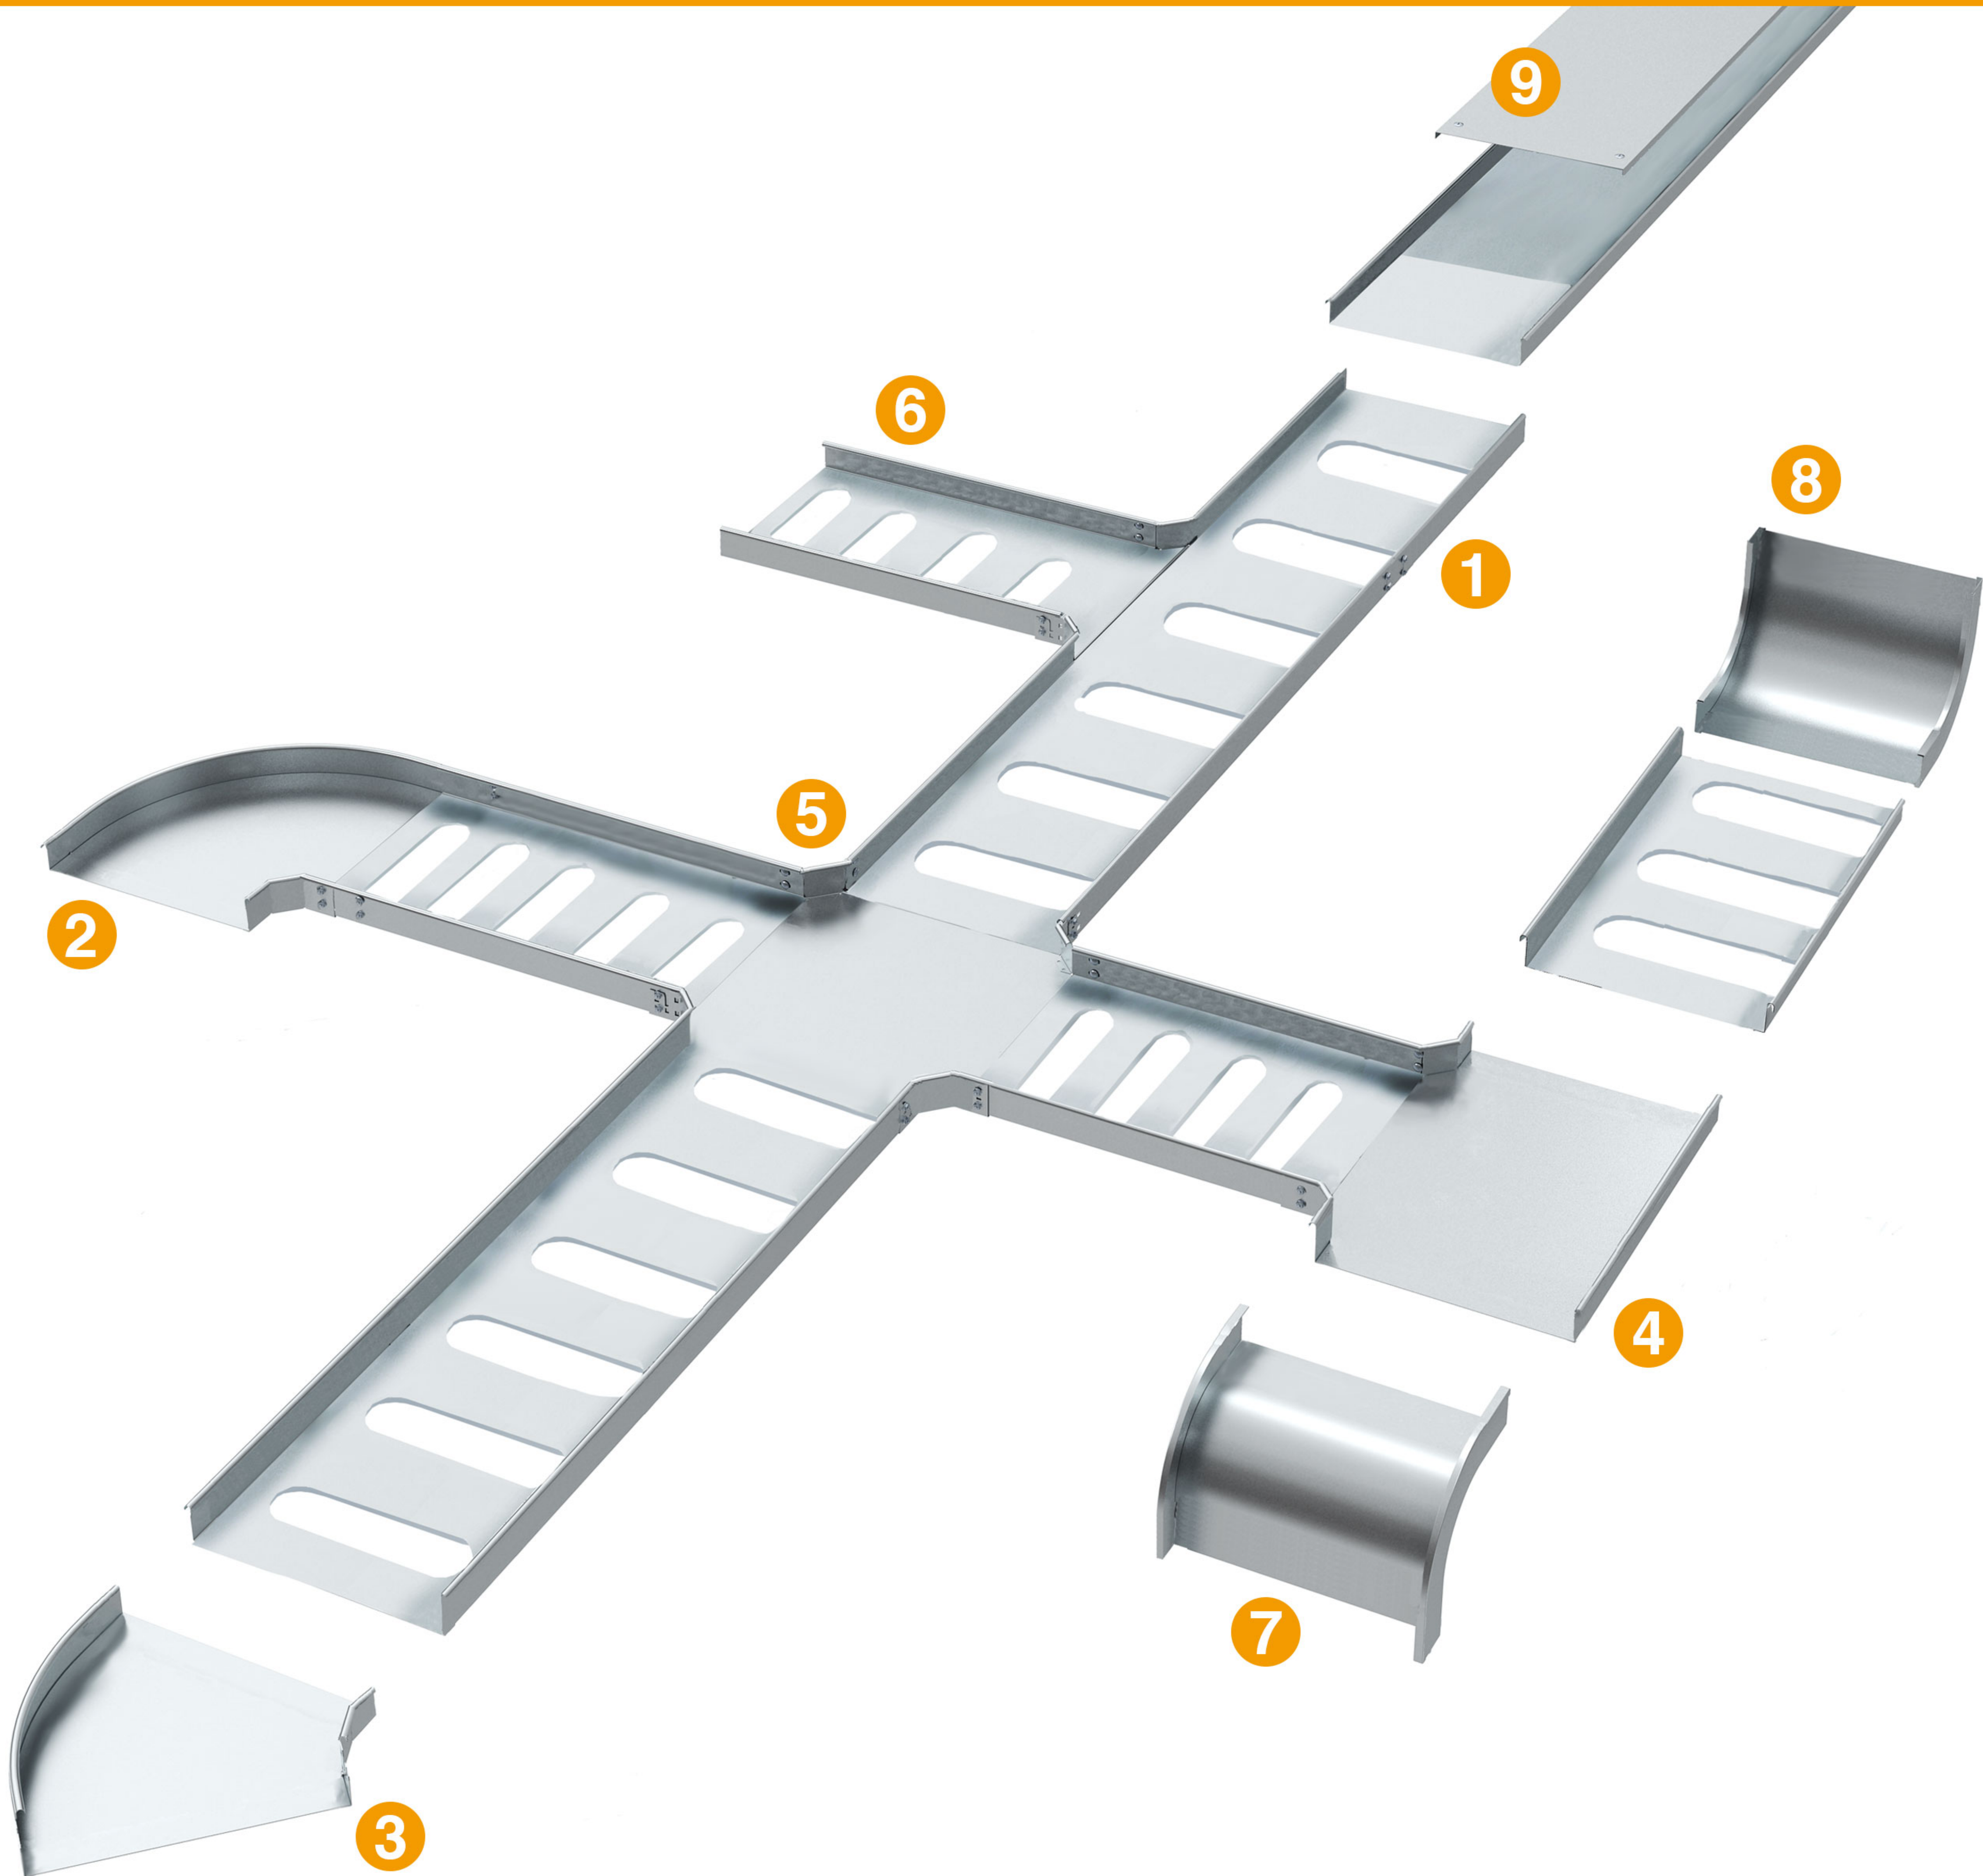

- Maximum length is 12'. Shorter spans available for custom cuts.
- Special load depths from 2"-8".
- Special widths with 90° flanges inboard or outboard.
- Comes with knock-outs or solid bottom.
- Can be painted.

The Series 6 system offers a complete line of covers, bends, intersections, and accessories.

Chalfant offers different finishes suitable for use in a variety of applications.

- **Aluminum Series 6 Tray** is ideal for corrosion resistance in harsh chemical environments.
- **Pre-Galvanized Steel Series 6 Tray** is more environmentally friendly and suitable for extended exposure indoors with a dry, normal, or mildly corrosive atmosphere.
- **Hot-Dip Galvanized Series 6 Tray** is recommended for prolonged outdoor exposure and corrosive environments.
- **.304 & .306 Stainless Steel Series 6 Tray** are suitable for harsher environments and areas where aggressive cleaners and disinfectants are used.
